

# PDS OnDemand™

**Access all your PDS data online anytime, anywhere.**

PDS OnDemand is a hosted solution that enables you to perform all the functions of your PDS desktop software over the Internet. All maintenance services, such as program updates and data backups, are automatically performed for you by our Professional Services department. With PDS OnDemand, you can expand your office walls and access all your PDS applications in an affordable, low maintenance, secure, and flexible package.

## USES

- Office staff and other designated persons can access and work with their PDS applications from anywhere with Internet service.
- Part-time, busy, or on-the-move staff can work outside the office and during non-business hours.
- Growing parishes can easily add programs as needs evolve.
- Offices without IT expertise or staff can benefit from the PDS OnDemand Professional Services team maintaining, updating, and backing-up your data.

## ⇒ DISTINCTIONS

- 24/7 access via the Internet
- Automatic software upgrades
- Daily remote data backups
- Completely secure and supported network
- Comprehensive Support
- iPad accessible

## FEATURES

### Anytime, Anywhere Access

Administrators, leaders, and any other assigned staff in your organization can have access to the data and PDS applications they need to efficiently accomplish their goals.

Assigned staff members are given logins to allow them and only them to access PDS OnDemand. The system cannot be accessed without a valid username and password. Standard application rights and permissions limit users' access to only the data and processes needed to do their jobs.

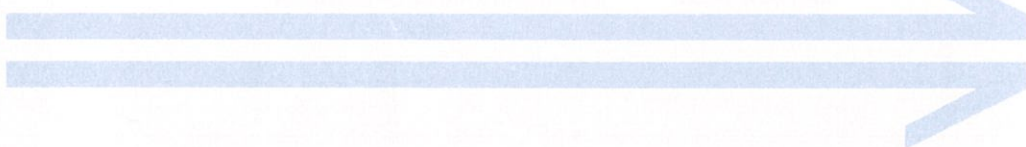

### Affordable Solution

With PDS OnDemand, your organization has no need for an IT technician or expensive hardware. As a hosted solution, PDS OnDemand is maintained by PDS Professional Services, who apply updates, manage backups, and configure security. In addition, all data stored in PDS OnDemand is sent to a secure off-site storage facility.

### Worry-free Network

PDS OnDemand is maintained by the PDS Professional Services team, providing:

- Server hardware repairs, upgrades and replacements
- Server operating system upgrades, patches, fixes, software upgrades, and service packs
- PDS software revisions and updates
- 24-hour network support for connection to server
- Remote data backups and secure off-site fireproof storage
- Disaster recovery

All functionality of the software remains the same, regardless of whether you are running your programs on your desktop or PDS OnDemand.

## Data Conversion

Clients new to PDS have the choice of the following affordable data conversion services:

- Importing files from your present software into PDS OnDemand
- Importing records from most databases or Excel<sup>®</sup> files

For a quote, please contact your PDS Sales Consultant.

PDS desktop clients switching to PDS OnDemand will have all their PDS data migrated over automatically during the onboarding process.

## Data Security

To ensure your data is 100% secure and protected, we utilize the most up-to-date security technology, including:

- Data encryption that meets the standard security protocol for data hosting
- Firewall protection
- Remote data backups and secure off-site fireproof storage
- Server site security with card key only building access
- Server access limited to Network Administration staff only

## On Demand for iPad

Access your PDS data using your iPad. Just like any other iPad application, there are certain ways you can interact with your PDS software that isn't possible through your conventional desktop or laptop. With the iPad OnDemand application, you are no longer tied down to a computer screen. Bring your PDS data with you while on the go. Just another way that PDS OnDemand helps make you mobile!

## Comprehensive Support

All the support and services of the PDS Preferred Client Program are included in PDS OnDemand, including unlimited access to well-trained, knowledgeable support representatives during regular business hours, 24/7 access to the online Knowledge Base, and a selection of online self-paced training videos.

## ADDITIONAL SERVICES

### Implementation

When you need help getting your ministry solution setup properly, PDS Implementation Specialists are here to offer you guidance and expertise. From accessing your needs to launching your solution, our specialists can help your organization achieve its goals.

### Training

Training options for PDS products available for an additional fee include self-paced online videos, customized training online or at your facility, and an annual conference.

[parishdata.com/ondemand](http://parishdata.com/ondemand)

Since 1978, Parish Data System<sup>™</sup> has been the leading developer of Catholic management software solutions by meeting the needs of over 9,000 parishes, schools and dioceses worldwide. In 2004, PDS joined forces with another church management software leader, ACS Technologies<sup>™</sup>, combining strengths and staff to offer the industry's best support and training along with the broadest line of church management software solutions. PDS software is used by many of the parishes in dioceses throughout the United States making it the top choice for Catholic management software and services. PDS continues to develop new technology solutions that aim to enable accurate data management, increase communications, and empower growth within Catholic organizations.
